Oil Purification Systems Announces Distribution Agreement with Larson Companies

Agreement with one of Peterbilt's premier truck distributor's furthers company's national sales and service capabilities.

Shelton, Conn. –October 22, 2007 – Oil Purification Systems (OPS) (www.ops-1.com), developer and manufacturer of the OPS-1™ on-board oil refining system, today announced a distribution agreement with Larson Companies, headquartered in Bloomington, MN. Under the agreement, Larson Companies will provide sales, installation and customer support services in their 17 locations spanning the Upper Midwest.

“We are very excited about our relationship with Larson Companies. They are one of the largest and most respected Peterbilt distributors in the country, and this agreement provides further evidence that the OPS-1™ technology is changing the way companies think about extending oil drain intervals.,” said Mitch Weseley, OPS president and CEO. “This partnership also offers tremendous benefits to our owner operators and small fleet customers, who can leverage 17 new locations in 7 states to buy and/or install the OPS-1™ system.”

John Meuwissen, Director of Parts for Larson Companies, is responsible for finding new products that can benefit the expansive customer base being serviced by Larson Companies. “OPS has been on our radar for sometime now, and we were impressed by the quality of the product, professional organization and most importantly, the value the OPS-1™ technology will bring to our customers. With such a compelling return on

investment and the “green return” of reducing waste oil we think that this product will be standard equipment in the near future. “

About Oil Purification Systems

Oil Purification Systems, Inc. manufactures the OPS-1™ on board oil refining system which removes the solid and liquid contaminants from engine oil, virtually eliminating the need for routine oil changes. OPS-1™ is used by hundreds of fleets on thousands of vehicles and generators in trucking, busing, construction, mining and many other applications. OPS-1™ users have dramatically reduced oil consumption, cut oil maintenance costs by 80 percent, and extended equipment life. Most OPS clients pay for their investments within six months. OPS-1™ is also an effective solution for corporate environmental sustainability programs. Founded in 2002, OPS is headquartered in Shelton, Conn. and has production facilities in Waterbury, Conn.
